One-Stop Resource
for Facilities Maintenance Professionals

To successfully provide facilities management expertise to your clients, it is critical to partner with trusted suppliers that offer quality products and services, timely delivery, competitive pricing and industry experience.

Multi-Fab Products combines these key elements with the goal of becoming *your preferred partner* for loading dock service parts & equipment.

"Multi-Fab Products is my preferred dock leveler vendor and one of my top vendors overall. They go above and beyond and are always there for me with any tech support questions. Plus, their prices are good and they ship quickly."

Joe Anderson, Vortex Doors—Las Vegas, NV

Industry Experience

We have been in the loading dock service parts business longer than any other full line supplier — more than 30 years!

Quality Products

Our service parts meet or exceed the requirements of the OEMs.

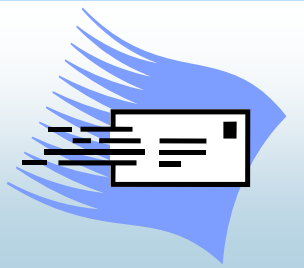

All parts warranted for one full year (some restrictions apply).

Competitive Pricing

Parts and accessories for all major brands at highly competitive prices — often much lower than OEM prices.

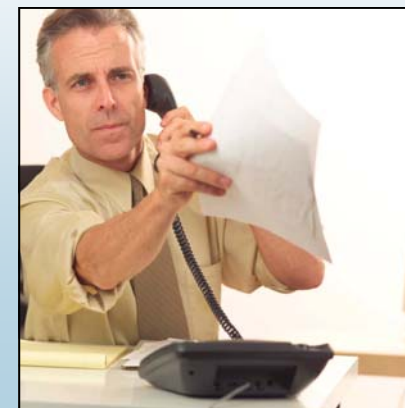

Fast Delivery

Our goal is to ship 100% of orders for service parts from our on-line catalog within 24 hours.

Technical Support

We offer the best technical support in the business. Our team will help you diagnose your loading dock problem and determine the parts you need for repairs — all at no charge — and there is no obligation to purchase your parts from us.

National Distribution

Multi-Fab Products has over 2500 dealers across the U.S. — so if you want to outsource your loading dock service and preventative maintenance, we can direct you to a dealer in your area.

Multi-Fab only sells to registered dealers. See below for more information.
